Purpose & Philosophy

Grace Lutheran Early Childhood Education (ECE) Center operates as an outreach of Grace Evangelical Lutheran Church. Our *Mostly Music* class seeks to reach and minister to the children and families in the community by offering a high quality preschool program. We strive to assist our parents with their responsibility to teach God's precious truths to their children.

The foundation of our educational philosophy is the development of the whole child. The cognitive, social/emotional, physical, and spiritual growths of the child are all important.

Each child is a unique gift from God and is encouraged to progress at his or her own rate. The caring Christian atmosphere provides a warm backdrop, allowing children to feel confident as they discover their God-given abilities. The stimulating, child-centered setting offers a safe and developmentally appropriate environment where children have the opportunity to make God-pleasing choices. Experienced and devoted teachers create challenging opportunities for children to "Grow in Grace."

ing children to feel confident as they discover their God-given abilities. The stimulating, child-
